## **Skier Triggered Avalanche, Lone Lake Cirque**

Lone Lake Cirque Northern Madison 4/9/2023 Code HS-AS Latitude 45.27710 Longitude -111.46400 Notes

From email: "There was yet another skier-triggered avalanche out in the Lone Lake Cirque this afternoon. Sounds a like a <u>cornice trigger</u> (not sure if it was intentional) that triggered a large <u>slab</u> on the slope below and ran full <u>track</u>. I do not believe the involved party rode the avalanche but it was another close call. This was adjacent to the one triggered a couple of days ago which was adjacent to the one triggered a few days before that."
