

Snow appears stable

Date

Mon, 02/19/2024 - 03:05

Activity

Snowmobiling

Centennial range blue and Wilson creeks. Did not see any signs of avys , or snow collapsing or whooping. Riders were on exposed slopes steeper than 30 degrees on all aspects high marking. It seems the centennial range has A more stable pack than other advisory areas. Although did not evaluate snow pack or dig pit, we stayed in low angle terrain

Region

Island Park

Observer Name

Tony
