

Specifics: Pit is adjacent to avalanche; other; Recent avalanche activity on similar slopes; Recent avalanche activity on different slopes

avalanche; other; Recent avalanche activity on similar slopes; Recent avalanche activity on different slopes

similar slopes; Recent avalanche activity on different slopes

activity on different slopes

Notes: Pit dug on the south shoulder of Mt. Abundance. When we rode away we saw a fresh small avalanche, 3' deep x 10' wide that we suspect we triggered on the angle ridge above. About 45 minutes later, from a couple miles away, we saw a 4-6' deep avalanche that happened since we had been there 1000' or more from our pit.
