## Persistent slab on Fisher Mtn.

Mount Abundance Cooke City 1/7/2025 Code HS-N-R3-D2.5-O Elevation 10000 Aspect N Latitude 45.07730 Longitude -110.02100 Notes

On Jan 9 we saw a large avalanche on the north side of Fisher Mtn. that happened at some time in the last week (could have been 48 hours to a week old), regardless of timing, this <u>slide</u> further shows the deeper weak layers are a real problem as snowfall continues to adds weight to the snowpack.
